

AQUIS EXCHANGE FEE SCHEDULE – MARKET DATA (effective 1st April 2023)

This schedule constitutes part of the Aquis Exchange Data Distribution Licence, Direct Data Licence or Data Licence (Non-Display) (together the “Data Licences”). Aquis reserves the right to change the fees in accordance with the terms of those agreements. Capitalised terms in this schedule are as defined in the Data Licences.

This schedule applies to the market data provided by the Aquis Exchange UK (AQXE), Aquis Exchange Europe (AQEU) and Aquis Stock Exchange (AQSE) trading venues.

All fees stated in this schedule are applicable per month, and billed monthly in advance, in GBP (£).

The following fees apply to market data from all trading services from AQXE/AQEU and AQSE. Firms that intend to use or distribute delayed data are responsible for delaying the data by at least 15 minutes. Firms that only intend to use Level 1 data are also responsible for separating the data accordingly.

Access to historical market data is available for an additional one-off fee of £1,000.

*Member Firms include participants paying either a trading subscription fee or designated liquidity providers on AQXE and AQEU. Fee exemption only applies for the market segment of membership.

** User fees are applicable to professional users only.

*** AQXE, AQEU and AQSE reserve their right not to make market data available and/or not to charge a relevant fee according to the use made by individual end users (per user basis) where such charge is disproportionate to the cost of making that data available to end users, having regard to the scale and scope of the data to be made available and the technical complexities involved. Further, vendors do not report to AQXE/ AQEU/ AQSE the identity of end users as to do so would incur material administrative complexity and costs to Aquis and the vendor. End users can access the Aquis display data via vendors/redistributors.

**** Fees for disaggregated data are detailed in the AQUIS EXCHANGE FEE SCHEDULE – DISAGGREGATED DATA available [here](#) for pre-trade and post-trade data disaggregated in accordance with the criteria set out in Article 1 of Commission Delegated Regulation (EU) 2017/572.
